PLUMBING.
NO DRILLING:
SIMPLY SNIP &
BEND TO OPEN.
PROVIDES
ADJUSTABLE
APERTURES TO
RUN SERVICES
THROUGH.**

**300MM
INTERVALS**

WHY OUR PATENTED ULTRASTEEL™
PROCESS WORKS SO WELL

THE UltraSTEEL™ RIGIDISING PROCESS IS AN INTEGRAL FEATURE OF OUR DRYWALL SYSTEMS.

Because of our patented UltraSTEEL™ process, we are able to offer cost-effective solutions that are innovative and of the quality that you expect from us. Gyproc and DONN are fully committed to setting new standards for the use of drywall systems in the building industry.

ABOUT OUR PRODUCT CODES

ALL OUR EXISTING ULTRASTEEL™ PRODUCT CODES REMAIN UNCHANGED.

In order to make this benefit as accessible as possible the UltraSTEEL™ product codes remain the same.

WHAT ARE THE BENEFITS OF DONN ULTRASTEEL™
WITH INDEXED H-PUNCH SERVICE HOLES

**SERVICE HOLES ARE
INDEXED AT 300MM
